Ultimate Pipe Flashing® for Metal Roofing Panels

This February, Lifetime Tool® will be releasing an Ultimate Pipe Flashing® specifically engineered and designed for metal roofing panels. The new Ultimate Pipe Flashing® for metal roofing will feature various colors to choose from as well as a primed version for any custom color. The Ultimate Pipe Flashing® for metal roofs will feature all of the same premium quality elements that our shingle version offers, such as a 100% Pure Silicone Boot, 24g Galvanized Kynar® plate, PVC locking collar and the ability to accommodate pitch up to 18/12. As always, it will be the only flashing that will permanently stop water intrusion around the pipe flashing on either shingle roofs and now metal roofs, too!

As always, all of our parts are 100% manufactured in the USA and each Lifetime Tool® roofing component is hand inspected for quality!

Coastal Carolina's, Savannah, GA
& Northeastern North Carolina

Fun facts about Jay:

Born and raised in the small town of Edgefield, SC, Jay attended Wardlaw Academy and was a multi-sport athlete. During his time there, he met his future wife, Amanda. After a stint in Myrtle Beach, SC and Nashville, TN, the couple settled in the Lowcountry of South Carolina near Charleston. Jay having a background through his family in the construction industry decided to pursue an opportunity working for a local roofing contractor as an estimator and project manager for several years before coming on board with Lifetime Tool® and Building Products.

When he is not working, Jay spends time with his wife, Amanda, and their two boys, Samuel and Grady. He enjoys going on their many camping adventures with their two dogs. He also enjoys saltwater fishing with the boys, weekend cookouts, college gamedays and restoring old classic vehicles.
