# Old copper or cast-iron pipe? We have the solution to properly flash plumbing vent pipes. See sizing chart below.

## EASYSleeve® CAST IRON (1½"-3") & COPPER (1"-4") PIPE?

CUT!  
DROP!  
GO!

Section Detail

NOT INTENDED  
FOR USE AS PIPE  
EXTENDER

The Ultimate Pipe Flashing® is pipe size specific for PVC, ABS, and some galvanized iron pipe. For copper and cast iron you must use the Lifetime Tool® EasySleeve® or EasyFit™. Formulated from black ASA polymer cap stock for weatherability over PVC for strength and impact. The EasySleeve® utilizes an integral nesting cap that effortlessly addresses both size and condition issues. It's a quick and simple installation that ensures a weather-tight seal.

EASYSLEEVE®					
CAST IRON			COPPER		
CAST IRON All Types	EASY SLEEVE®	ULTIMATE PIPE FLASHING®	COPPER	EASY SLEEVE®	ULTIMATE PIPE FLASHING®
1½"	200	200	1½" & 1½"	150	150
2"	300	300	2"	200	200
3"	400	400	3"	300	300
			4"	400	400

Note: 2" EasySleeve® has both a cap for cast iron on one end & a cap for copper on the other. Choose correct cap & cut to length.

Note: Use same number flashing as sleeve

## EASYFit™ 3" or 4" CAST IRON TOTAL ABOVE ROOF PIPE REPLACEMENT

TAP IN STRUCTURAL NO GLEE CAP

3" or 4" CAST IRON?  
INSTALL A NEW PIPE IN  
LESS THAN 10 MINUTES

Cast iron's inherently irregular surface along with corrosion and residual repairs often make it very difficult to properly seal. The Lifetime Tool® EasyFit™ is both incredibly quick and extremely cost effective. Our patented technology includes an 18" formulated Solarkote® (PMMA) polymer cap stock for unequalled weatherability bonded to PVC for strength and impact and a thick-walled coupling. The three flexible seal rings provide stability and prevent the downdraft of sewer gases. The tap in no-glue compression cap provides superior crush resistance against heavy snow loads. Finish the system installation with the Ultimate Pipe Flashing®

- Use a reciprocating saw with a specialty cast iron cutting blade (available from your local building materials supplier)
- Oil blade frequently while cutting - Low RPM (go slowly)
- See video on website

FLASHING NIGHTMARE...  
GONE IN A BLINK.

EASYFIT™		
CAST IRON PIPE	EASYFIT™	ULTIMATE PIPE FLASHING®
3"	300	300
4"	400	400

For 3" radon pipe (schedule 30) you must use this adapter for the UPF

30/40 ADAPTER

Easily retrofits Sch. 30 (Radon) to Sch. 40 PVC

Instructions:

1. Cut the existing Sch. 30 pipe in the front, no more than 3" above the roof deck.
2. Apply PVC solvent cement (per manufacturer directions)
3. Push the 30/40 Adapter firmly over the existing pipe until seated. Cut to desired length.
4. Install the Ultimate Pipe Flashing®.
