

Failed Pipe Flashings are the #1 Roof Leak!

Many pipe flashings look like these, even newer homes should be inspected.

The Solution is The Ultimate Pipe Flashing®

US PATENTS D662230 S, 8,484,914 B2

Made from ultra-pure silicone, just like sand it's made from silica and is 100% stable in the sun.

"Silicone is virtually unaffected by weather – rain, snow, humidity, ozone or the sun's damaging ultraviolet (UV) rays"

Why you need quality flashings!

Common locations for water damage

Plumbing pipes are inside the walls and floors and leaks can travel easily throughout the house. They are usually discovered as stains on your ceilings, walls or floors.

© Tom Feiza Mr. Fix-It Inc.

Gradual water damage of this type caused by deterioration of pipe flashing IS NOT typically covered by insurance as it can be deemed to be a maintenance issue.

Hidden damage can go undetected for years!

THE ULTIMATE BATH/DRYER VENT

US PATENTS D934,409 S 10,927,550 B1

- Removable cap for service
- Rubber damper cushions for quieter operation
- Removable snap-in stainless steel screen (for bath venting only)
- Large plate for a leak-proof installation, sealants or ice and water shield not required
- For use with 3" and 4" pipe, drop pipe and adapter included
- Even the black oxide screws are stainless steel, for a lifetime of easy cap removal
- Built to truly last life of the roof
