INDUSTRY SPOTLIGHT

This month's Industry Spotlight is [Casillas Contracting](#), based in Middletown, DE and serving Delaware, New Jersey, Maryland, Pennsylvania, and Florida. They are a licensed and insured construction company, offering full-service residential and commercial roofing, gutters, siding, and interior/exterior painting all done by professionals that have integrity in their work.

"I love ordering the Lifetime Pipe Collar because they offer my customers a quality product that I know I can stand behind and not worry that in 10 to 15 years they develop a leak and wear out the way a standard pipe boot would.

It's definitely a much better walk around with the customer when the roof is complete having Lifetime Pipe Collars on the roof because it looks so much better than the standard rubber ones. Customers always tell me how much they love the way it looks and that makes us feel good.

Our top priority is the customers satisfaction, #CasillasContracting."
- Omar Casillas, Owner, Casillas Contracting

Thank you to Casillas Contracting for their support of Lifetime Tool® & Building Products and for using our lifetime roof system components.
