- [R.P. Lumber — Champaign, IL](#)

Find our products at a stocking distributor near you with our [Distributor Store Locator](#).

### PRODUCT SPOTLIGHT

#### Top 3 Reasons to Choose The Ultimate Bath/Dryer Vent

Engineered for long-lasting performance, durability, and easy maintenance, the *Ultimate Bath/Dryer Vent* from **Lifetime Tool<sup>®</sup>** is the smart choice for reliable, worry-free ventilation.

Every curve, bend, and component is purpose-built. Crafted from premium materials and designed to outlast the very roof it's installed on.

Here's why customers trust the Ultimate Bath/Dryer Vent:

### 1. Easy Maintenance

Unlike most vents that require attic access for cleaning (if you can even get to it at all!), our design features a **removable cover** that allows for quick, convenient servicing — without the hassle.

### 2. Quiet Operation

Built-in **rubber damper cushions** minimize operational noise, while a **wind wall** shields the damper from gusts and prevents clatter — ensuring quiet performance.

### 3. Leak-Proof Installation

Our **oversized Kynar®-coated galv. flashing plate** is a must-have for a watertight seal. Having the largest flashing plate on the market means seamless integration with roofing materials for superior weather protection. Included **nail slots** accommodate for thermal expansion, while a **crush bead** ensures a flatter, more secure fit.

---

Proudly made in the USA, the Ultimate Bath/Dryer Vent is available for both **shingle** and **metal roof** applications. It's built from **premium components**, including a **specialty polymer** used for the subcap and base that won't break down or corrode over time. Certified **Class IV hail impact resistance** ensures optimal performance even in extreme weather conditions.

Whether you're replacing an old vent or installing a new one, the Ultimate Bath/Dryer Vent is built to perform — **and truly last the life of your roof.**

## Product Testimonial

"At [Professional Roofing Co.](#), we're passionate about using products that truly protect our customers for the long haul — and the Ultimate Pipe Flashing® is one of those game-changers. **Failed pipe flashings are the #1 cause of roof leaks**, but with this product's pure silicone design and watertight compression collar, we know our customers are covered for the life of their roof. It's not just about replacing a roof; it's about giving our homeowners peace of mind. We choose the Ultimate Pipe Flashing® because it's built with the same integrity and long-term focus that we bring to every job. **It's the kind of upgrade we'd put on our own homes** — because our customers deserve nothing less."

- Jon Kenyon (Owner) & Skylar Evans (General Manager)
